

I enjoy the benefit from listening to XM Satellite Radio and its traffic and weather channels. Sometimes Local Radio do not offer the variety I prefer. satellite radio provides variety and quality that are not always available in every Metro Area. I pay for these services just like people pay for Cable Tv and it should not be up to the National Association of Broadcasters to dictate what I am permitted to purchase or hear. I Respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I as a consumer demand and deserve.
